### Education & Training

- **Bsc. Mechanical Engineering**  
*Lagos State University - 2024*
- **Fullstack Web Development**  
*New Horizon Computer Institutes - 2023*
- **ALX Professional Foundations**  
*ALX Africa - 2024*
- **ALX Cloud Computing Program**  
*ALX Africa - 2025*

### Certifications

- **Certified in Cybersecurity**  
*ISC2 - 2024*
- **AWS Cloud Practitioner**  
*Amazon Web Services - 2024*
- **AWS Solutions Architect Associate**  
*Amazon Web Services - 2025*

### Skills

- **Web Fundamentals**
  - CSS
  - HTML
- **Programming Languages**
  - Javascript
  - PHP
  - Typescript
- **Frameworks**
  - Vue.js
  - Laravel
  - Nest.js
- **Deployment**
  - AWS
  - Cpanel
- **Databases**
  - Relational Databases (MySQL, PostgreSQL)
  - Non-relational Databases (MongoDB, DynamoDB)
- **Version Control**
  - GitHub
  - AWS Code Commit
- **CI/CD**
  - GitHub Actions

### Summary

I am a **Full-Stack Web Developer** skilled in building **high-performance, scalable applications** using **NestJS, Laravel, Vue.js, and Nuxt.js**. Experienced in designing efficient data architectures with both **SQL** and **NoSQL** databases, while ensuring **strong security practices**. Passionate about creating seamless user experiences and delivering robust web solutions

### Experience

- **Freelance Web Developer**
  - Delivered high-quality software solutions for clients, specializing in full-stack web development using Laravel, Vue, PHP, Typescript, and NestJS.
  - Managed end-to-end project lifecycles, from ideation to deployment, while ensuring scalable and maintainable codebases.
  - Delivered high-quality, tailored solutions to meet client needs effectively.
- **Full Stack Developer**  
*Leenkonnnect IT Solutions (Contract based Dec. 2024 - Feb. 2025)*
  - Led development of the startup's website and core digital services, designing a secure, scalable architecture to support growth.
  - Implemented CI/CD pipelines and set up monitoring to streamline workflows and proactively manage production stability.
  - Collaborated with product and design teams to align technical solutions with business goals, optimizing performance and reliability.

### Projects

- **Emporium - Multi Store Ecommerce Platform (Nest.js, PostgreSQL, MongoDB, Nuxt.js, TailwindCSS)**
  - Built a responsive, user-friendly **Nuxt 3 frontend** for shoppers, store owners, and admins with tailored dashboards for managing products, orders, and analytics.
  - Developed feature-rich NestJS microservices handling core eCommerce functionalities like authentication, product management, orders, and notifications.
  - Integrated real-time updates using **Socket.io** to enhance user experience with live notifications and order tracking.
  - Implemented secure user authentication and authorization using **JWT** and **Passport.js** to protect users and store data.
  - Delivered seamless media upload and storage with **AWS S3** integration, ensuring optimized handling of images and videos.

- **Tools & Productivity**
  - Google Workspace
  - Microsoft Office Suite
- **Dreamscape - A Social Media Platform with Real time Chat Service**
  - Developed a dynamic **Nuxt 3** frontend enabling users to post updates, interact through likes and comments, and engage in real-time chat.
  - Built modular NestJS microservices to handle core features such as user profiles, posts, interactions, and chat messaging.
  - Integrated Socket.io for real-time messaging and notifications, enhancing user engagement and responsiveness.
  - Implemented secure authentication and authorization using JWT and Passport.js, safeguarding user data and sessions.
  - Managed media uploads and storage efficiently with AWS S3 integration, supporting images and videos across the platform.
